How has the business developed over time? For example, what new additions to the infrastructure were made (and when), how have staffing levels grown, what significant improvements have been made to the product/service?

What are the products, experiences and/or services on offer to visitors? Provide sufficient detail to ensure the judge can obtain a good understanding of what is on offer.

This is where the judges (and auditors) will gain an understanding of how the business fits into the category; therefore, it is important to clearly demonstrate your eligibility by aligning with the category criteria to ensure that there is no misunderstanding as to why you have entered this category.

The judges may not be familiar with the business – your submission may be judged nationally and could have judges that are not from your state/territory. Therefore, explain everything from the ground up.

2. Business Development (15 marks)

A. During the qualifying period, what innovations/enhancements has the business implemented to improve the product/experience/service and why? 10 marks

This question seeks to understand how the business has improved the product/experience/service within the qualifying period and the rationale behind the enhancement.

Consider any innovations and/or enhancements that were implemented to develop the visitor experience/service over this period. If many, include the most significant ones.

An innovation can be defined as “The process of introducing new or significantly improved goods or services and/or implementing new or significantly improved processes.” (Source: Australian Bureau of Statistics).

An enhancement could include, for example, a new experience or facility, updating point of sale processes to changing to ethically sourced supplies.

If the business has been significantly impacted by natural or world events within the qualifying period, describe what the business implemented to support its recovery/resilience. Outline the strategies implemented for business endurance through the challenging events.

Actions that supported the ongoing survival of your business could include, for example, diversifying your product/experience, seeking alternative ways for the delivery of the experience/product/service, etc.

Explain the decision-making process that drove the business to implement the innovations/enhancement. Consider how these enhance the visitor experience and/or supported business endurance.

The judges will be looking for an understanding of what prompted the innovations/enhancement e.g., was it a result of guest feedback, change in market demand, etc., or how it was anticipated to support business endurance in the current climate.

Your response should include the research and planning undertaken by the business to reach the decisions taken. For example: external research that was considered, past customers surveyed, etc.

Include how the innovations/enhancement align with the business’s main goals and strategies that were outlined in Q1.B. Ensure the goals are specific so you can link it to the outcomes in the next question.

B. What were the outcome/s of the innovation/enhancement? 5 marks

Judges are looking for qualitative and quantifiable data that demonstrates what the expected outcomes of the innovations/enhancements were, and whether these were achieved. If able to, provide previous years data to assist to demonstrate improvements.

Outline what measures are in place to track the success of these innovations/enhancements.

The response is looking for more than the innovation/enhancement being successfully created e.g., ‘new infrastructure was successfully built’, rather, it is looking for insight as to how it supported the business to reach its goals/strategies e.g., visitation increased by an average of 10 visitors per day, visitor satisfaction improved by 13%, engagement with the website increased from an average of 3 mins to 11 mins etc.

If the anticipated outcomes were not reached, acknowledge this, and provide the judges with insight as to why. How did the business respond?

Consider using a table to clearly assist in aligning your answer to Question 2.A.

If the outcomes are still pending, provide what data is available and what the forecasted results may be.
